EDUCATION

Sri Krishna Arts and Science College
Bachelor of Science in Computer Science

Coimbatore, India
2015 – 2018

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Tools & Technologies: React.js, React Native, Next.js, Redux, Node.js, Express.js, REST APIs, GraphQL, TailwindCSS, Material UI, Firebase, AWS, Git, GitHub, SonarQube, Postman, JIRA, Cursor AI

EXPERIENCE

Mphasis
Senior Software Engineer

Bengaluru, India
Jul 2025 – Present

- Developed and optimized **scalable mobile features** using **React Native**, **TypeScript**, and reusable frontend architecture patterns.
- Engineered **secure authentication workflows** using **Firebase Auth**, **Cloud Functions**, and token-based authorization systems.
- Integrated **SonarQube** into **CI/CD pipelines** improving static code analysis and maintainability standards.
- Managed **Android app deployment workflows** through Google Play Console for QA validation and production releases.
- Improved **development productivity** by nearly **50%** using AI-assisted engineering workflows and reusable systems.
- Designed **modular UI component systems** improving frontend consistency and scalability across applications.

HST Global
Software Engineer

Bengaluru, India
Feb 2023 – Jul 2025

- Architected **scalable React Native applications** improving maintainability and onboarding efficiency.
- Developed and integrated **secure payment gateway systems**, enterprise-grade **REST APIs**, and authentication workflows.
- Optimized **frontend rendering performance** and asynchronous API handling for smoother user experiences.
- Participated in **peer code reviews** ensuring scalable and maintainable frontend implementations.
- Enhanced **healthcare and insurance modules** with reusable frontend solutions and scalable business components.
- Collaborated with **cross-functional teams** to deliver scalable healthcare applications.

Emproto Technologies
Software Engineer

Coimbatore, India
Jun 2021 – Feb 2023

- Built and optimized **responsive financial dashboards** using **React.js**, **Redux**, and **Chart.js**.
- Implemented scalable **GraphQL integrations** and centralized frontend state management workflows.
- Developed reusable **UI component libraries** using **Material UI** improving frontend consistency.
- Integrated secure **REST APIs** for order processing, transactional systems, and cart workflows.
- Collaborated with **product stakeholders** to build scalable frontend architecture solutions.

PROJECTS

Form Handling Application | *React.js, Node.js, MongoDB*

2021

- Built a **full-stack form management platform** enabling scalable form submission and backend workflows.
- Developed secure **REST APIs** using **Node.js** and **Express.js**.
- Designed responsive **frontend interfaces** using reusable **React.js** component systems.

Portfolio Website | *React.js, TailwindCSS*

2024

- Developed a **responsive portfolio website** showcasing projects, technical skills, and frontend expertise.
- Implemented **smooth animations**, reusable UI components, and responsive layouts using modern frontend practices.

ACHIEVEMENTS

- Improved **mobile development productivity** by **50%** using AI-assisted workflows.
- Built scalable applications using **React Native**, **React.js**, and **TypeScript**.
- Experienced in **frontend architecture**, reusable component systems, and performance optimization.
